Please note: -- As the active ingredients in Ear Natural® ear drops comprise natural oils from flowers and seeds, used as natural home remedies for generations, the Ear Natural® proprietary formulation is categorized as a traditional natural otic (ear) medicine, recognized as safe and effective for indications preceding current FDA market guidelines for non-prescription/over-the-counter (OTC) medicines and OTC monographs.

Get ready to educate your customers now, and have them ready before the fall and winter seasons, when middle-ear infections peak.
